### **Cicor wins new customer for manufacture of latest generation motion detectors**

**Zurich, 18 April 2011. The Cicor Group's Electronic Solutions Division has secured a major order worth several million Swiss francs a year for the manufacture of motion detectors of the latest generation.**

The order placed by a renowned manufacturer in the field of building services engineering comprises the entire box building from PCB assembly to cabling, system assembly, cabinet construction and packaging.

Clearly the client was won over by the many years of experience and know-how of the Cicor Electronic Solutions Division in large-batch production and the associated requirements with regard to automation. The Cicor production site in Romania provides the optimum outline conditions for the mass production of high quality electronic products. This major order once again confirms Cicor Electronic Solutions Division's leading position as a globally recognised partner in the field of electronic manufacturing services.
