

## Media release

### **Cicor is awarded a major aerospace contract**

**Zurich, 6 October 2011 – The Microelectronics Division of the Cicor Group (SIX Swiss Exchange: CIGN), a leading, internationally operating group headquartered in Boudry (Switzerland) specialising in printed circuits boards, microelectronics and electronic solutions, today announced the signing of a framework agreement with Hamilton Sundstrand to manufacture hybrid/electronic modules. The order represents a volume of EUR 8 million over the next three years.**

The framework agreement with Hamilton Sundstrand Corporation, a company belonging to United Technologies Corporation and a leading supplier of equipment to the aerospace industry, involves the manufacture of hybrid/electronic modules for power supply and distribution in aircraft. The high tech components will be manufactured at the Cicor Microelectronics Unit in Radeberg, Germany.

The order underscores the excellent positioning of the Cicor Microelectronics Division as a leading European supplier and globally acknowledged partner for microelectronics. This additional order from Hamilton Sundstrand, furthermore, strengthens the partnership between the two companies.

**About Cicor** • Cicor is a globally active group of leading companies in the electronics industry. It is organized into four divisions: Printed Circuit Boards (PCB), Microelectronics (ME), Electronic Solutions (ES) and Asia. The group's companies provide complete outsourcing services and a broad range of technologies for the manufacture of highly complex PCBs, 3D-MID solutions, hybrids and electronic modules. With around 1300 employees at twelve production sites worldwide, the group supplies high-quality custom-made solutions to its clients in Europe, America and Asia. The shares of Cicor Technologies Ltd. are listed on the SIX Swiss Exchange (CICN). For further information please visit [www.cicor.com](http://www.cicor.com).
