

## Media release

### **Cicor secures a further blanket order worth several million Swiss Francs in the telecommunications sector**

**Zurich, 27 October 2011 – The Electronic Solutions Division of the Cicor Group (SIX Swiss Exchange: C1CN), a leading internationally operating high-tech industrial group headquartered in Boudry (Switzerland), specialising in printed circuit boards, microelectronics and electronic solutions, today announced the award of a further blanket order to manufacture products in the telecommunications sector.**

The order was placed by a globally active Swiss telecom equipment provider specialising in network infrastructure. It includes the manufacture of access systems for business connectivity services and mobile backhaul solutions as well as a worldwide repair service for the hardware. The production agreement includes the procurement, printed circuit board assembly and functional testing. This is supplemented by the entire box-building and packaging. The order will be processed at the production sites of Cicor Electronic Solutions Division in Bronschhofen, Switzerland and in Arad, Romania, with central coordination being undertaken in Bronschhofen. This will ensure optimal processing and support tailored to the customer's needs.

The many years of experience and cutting-edge expertise of the Cicor Electronic Solutions Division in box-building and telecommunications convinced the customer and will safeguard the long-term partnership with the Cicor Group.
