Electronic manufacturing services (EMS)

PCB assembly, box building and system assembly, microelectronic assembly, tool design and fabrication, plastic injection molding

The EMS production sites in Arad (Romania), Batam (Indonesia), Bronschhofen (Switzerland), Radeberg (Germany), Singapore (Singapore), Suzhou (China) and Thuan An Town (Vietnam) are service providers in development and manufacturing for electronic components, devices and systems. With a wide range of production options in printed circuit board assembly, microelectronic assembly in box building and system assembly and control cabinet construction, cable assembly, tool design and fabrication and plastic injection molding, Cicor offers outsourcing solutions from the idea to the finished product.
The Cicor Group is a globally active development and manufacturing partner with innovative technology solutions for the electronics industry. With about 2100 employees at ten production sites, Cicor offers highly complex printed circuit boards, printed electronics, hybrid circuits and substrates as well as comprehensive electronic manufacturing services (EMS) including microelectronic assembly and plastic injection molding. Cicor supplies customized products and services from design to the finished product from one source.
